The **Responsible AI Governance Initiative (RAI-GI)**, in partnership with **ForHumanity**, is proud to announce **Nigeria's first independent certification framework** for AI, Algorithmic, and Autonomous (AAA) Systems, designed to set the standard for ethical, transparent, and accountable governance across Africa.

## Historic Joint Session

On **August 6th, 2025**, RAI-GI hosted a joint virtual session with **Ryan Carrier, FHCA**, Executive Director of ForHumanity, and **Paul Crafer, FHCA**, ForHumanity Fellow and Vice President Services – EMEA at Assessed Intelligence. Together with Nigerian legal, technical, and policy experts, we are co-developing a modular certification framework tailored to Nigeria's laws and governance realities.

*RAI-GI & ForHumanity joint session on developing Nigeria's AAA Systems Certification Framework, August 6, 2025*

## **Key Highlights**

### **Pilot Program Confirmed**

Launching with Data Protection Certification fully aligned with NDPC 2023

### **Weekly Working Group**

Localizing tools and developing context-specific certification standards

### **Open-Source Collaboration**

Free, adaptable frameworks from ForHumanity, tailored for Nigeria

### **Legal & Technical Taskforces**

Leading framework development, public outreach, and stakeholder engagement
